About Me

Hi, my name is Darshan Virani, and my favourite subject is a computer, I am learning about it. During my college days, I discovered Node JS and Mongo DB along with website development tools as a career value, and that's why I am willing to work with them.

Professional Carrier

I am a Fresher in my professional career. I want to apply my programming skills to Web platform. So, I am looking for a job in IT industry to gain knowledge and expand my professional career to achieve my future goal.

Operating System

IDE & Software Tools
